

AutoCAD Lab 1

<https://web.autocad.com/>

Absolute Coordinates (x,y)

Points are defined based on their distance from the WCS origin (0,0).

Command: **LINE**

Specify first point: **0,0**

Specify next point or [Undo]: **45,0**

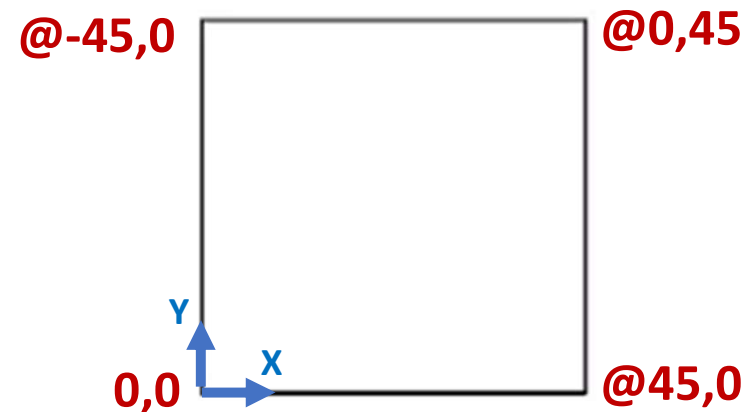

Specify next point or [Undo]: **45,45**

Specify next point or [Close/Undo]: **0,45**

Specify next point or [Close/Undo]: **C**

Relative Cartesian Coordinates (@x,y)

Points are defined relative to the previous point. The '@' symbol indicates the next point is relative to the last.

Command: **LINE**

Specify first point: **0,0**

Specify next point or [Undo]: **@45,0**

Specify next point or [Undo]: **@0,45**

Specify next point or [Close/Undo]: **@-45,0**

Specify next point or [Close/Undo]: **C**

Relative Cartesian Coordinates (@x,y)

Points are defined relative to the previous point. The '@' symbol indicates the next point is relative to the last.

1.Command: **LINE**

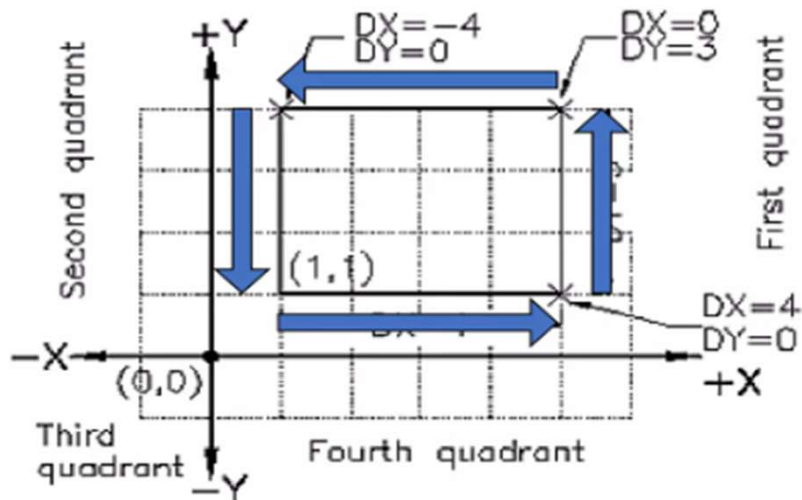

2.Specify first point: **1,1**

3. Specify 2nd point: **@4,0**

4. Specify 3rd point: **@0,3**

5. Specify 4th point: **@-4,0**

6.Specify Start point: **@0,-3**

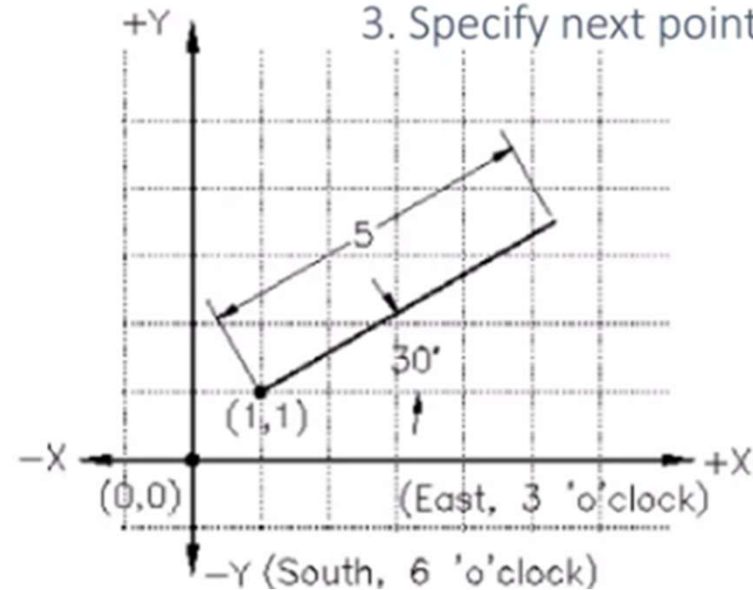

Relative Polar Coordinates (@distance<angle)

Defines points based on a distance and angle relative to the previous point, ideal for angled lines.

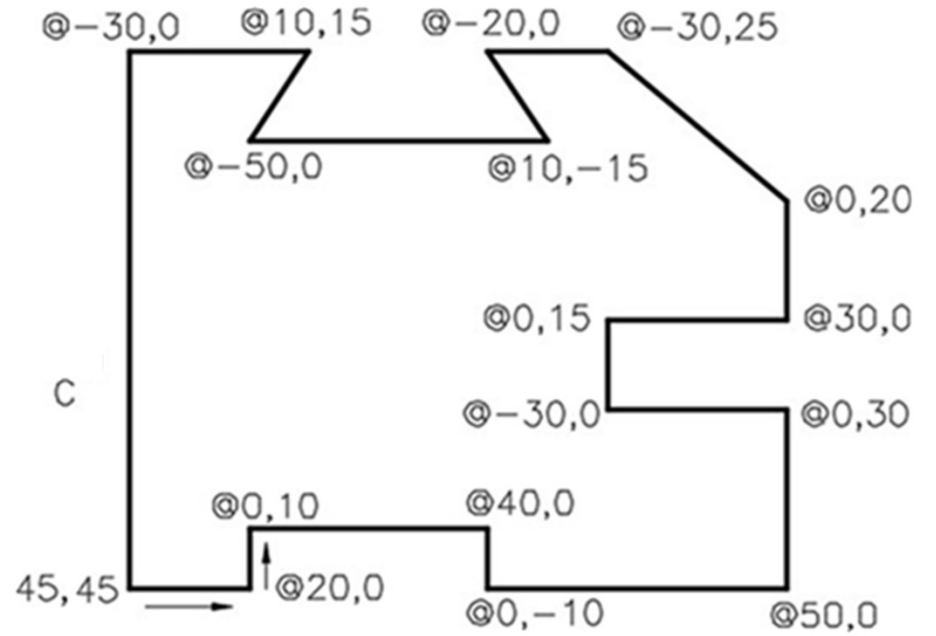

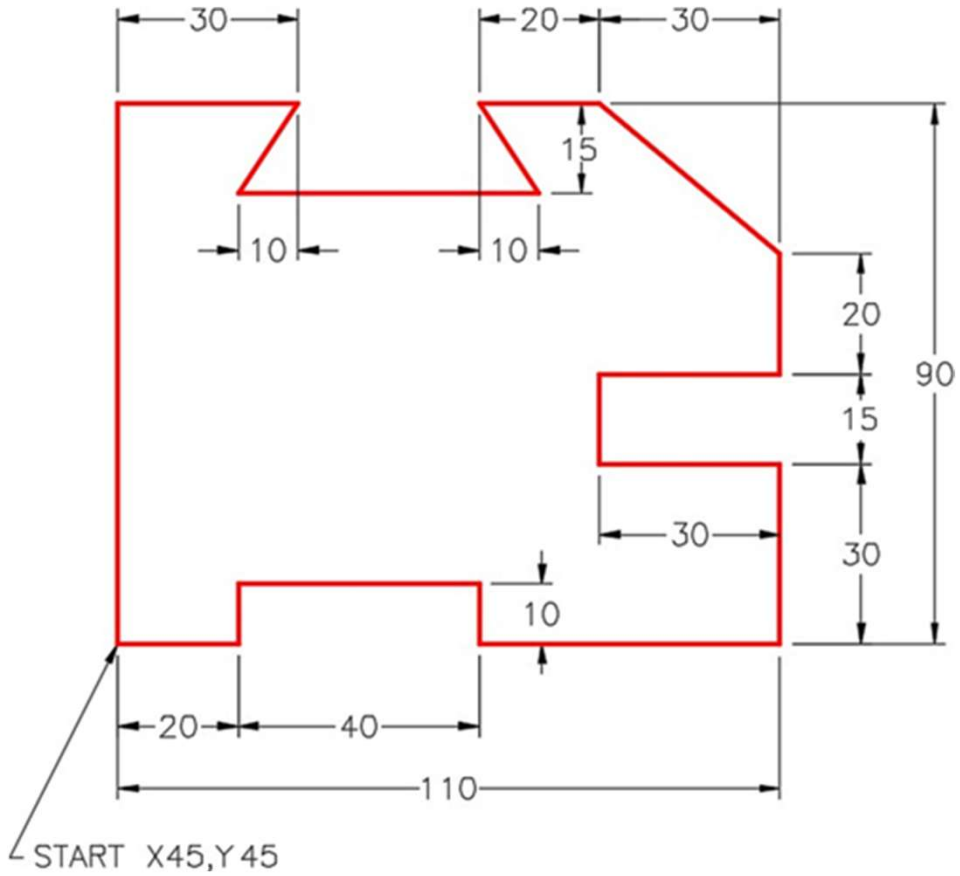

1.Command: **LINE**

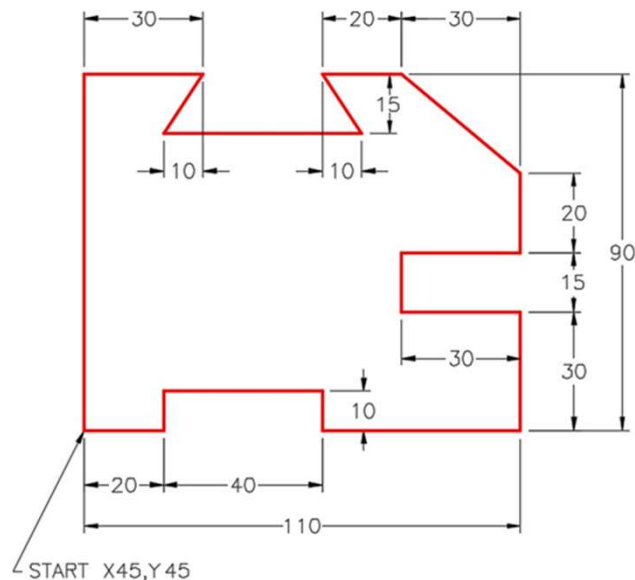

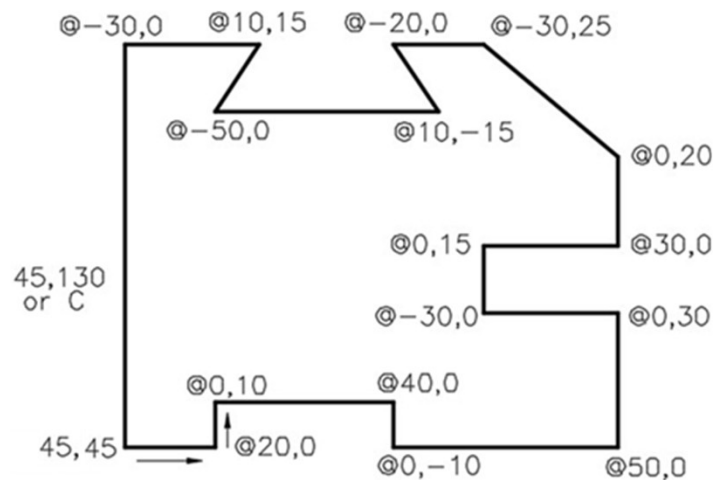

2.Specify first point: **1,1**

3. Specify next point: **@5<30**

Relative Cartesian Coordinates (@x,y)

Command: **LINE**

Specify first point: **45,45**

Specify next point or [Undo]: **@20,0**

Specify next point or [Undo]: **@0,10**

Specify next point or [Close/Undo]: **@40,0**

Specify next point or [Close/Undo]: **@0,-10**

Specify next point or [Close/Undo]: **@50,0**

Specify next point or [Close/Undo]: **@0,30**

Specify next point or [Close/Undo]: **@-30,0**

Specify next point or [Close/Undo]: **@0,15**

Specify next point or [Close/Undo]: **@30,0**

Specify next point or [Close/Undo]: **@0,20**

Specify next point or [Close/Undo]: **@-30,25**

Specify next point or [Close/Undo]: **@-20,0**

Specify next point or [Close/Undo]: **@10,-15**

Specify next point or [Close/Undo]: **@-50,0**

Specify next point or [Close/Undo]: **@10,15**

Specify next point or [Close/Undo]: **@-30,0**

Specify next point or [Close/Undo]: **c**
